Reported by Tommy Garback, Troop Historian

Newtown Bypass Cleanup

This Sunday, fifteen troop members woke at 7:00 AM to drive to the Newtown Bypass. We all met in a parking lot across from the NAC and ate doughnuts for a quick meal. This was at the intersection of Penns Trail and the Newtown Bypass. Breakfast, gloves, safety vests and trash bags were all provided. A few of the older scouts broke into a small group and the rest of us in another. We collected trash from both sides of the Bypass between Penns Trail and South State Street to better help the environment and provide service hours to scouts. The route was about two and a half miles, lasting nearly three hours (ending at 9:45). The project is semi-annual, and really helps to care for our community! All who helped are greatly appreciated!
