

Boy Scouts of America

Troop 280

April Highway Cleanup

This past Sunday, April 19th, the troop cleaned the highway at the intersection of Penns Trail and the Newtown Bypass. There were 11 scouts and 9 adults; all met in the parking lot of the bank across from the N.A.C. at seven o'clock. The weather made for a breezy and sunny morning. After a quick breakfast of doughnuts and coffee, everyone geared up with vests and gloves. From there, two groups were made and each took a side of the highway, departing the parking lot around seven fifteen. The litter patrolling lasted for a solid two hours, and the troop was gathered back by the cars at 9:30 after the collection of trash bags was dealt with. No money was found, though various items like hats, golf balls, and tennis balls were quite plentiful. All participated well and the project moved very smoothly. Good job everyone!
