

Boy Scouts of America

Troop 280

November Bypass Cleanup

On Sunday, November 23, 2014, the troop cleaned the highway at the intersection of Penns Trail and the Newtown Bypass. About fifteen scouts and adults met at the parking lot of the bank across the street from the NAC around 8:10 in the morning. After a quick breakfast of doughnuts and coffee, everyone put on gloves and safety vests, and broke into two groups. The litter patrolling only took an hour and ten minutes, so we were all done and leaving by 9:45. The weather was slightly cold but warmed as the day progressed. There was some overcast, but sunshine still broke through. Two \$1's and a \$20 were found, along with a driver's license. The project moved quickly and a lot of trash was collected to help the environment.
